Aniket Gode Data Analyst | Business Insights, Business & Operations Analytics **Location:** Mumbai, India

Mobile: 91304 69780 **Email:** aniketgode210@gmail.com **LinkedIn:** https://www.linkedin.com/in/aniket-gode/

SUMMARY OF QUALIFICATIONS

Data Analyst with experience in business insights, performance reporting, dashboard development, and operational analytics across procurement, sales, retail, logistics, HR, education, and marketing. Proficient in **SQL, Python, Power BI,** and **Excel** for data cleaning, analysis, visualization, KPI reporting, and business process analysis. Experienced in transforming operational data into actionable insights that support decision-making, process efficiency, and performance improvement.

PROFESSIONAL EXPERIENCE

Data Analyst – Zenriv Exim LLP **Mumbai, India** **Jul 2026 – Present**

1. Coordinate daily work tracking, pending activities, and team priorities, preparing reports for management.
2. Manage PR workflow from supplier price collection and verification through target preparation and order decisions.
3. Validate procurement data across supplier pricing, history, product details, and monthly records, identifying inconsistencies before decisions.
4. Support ERP dashboard development and validation, reconciling system outputs with **Excel**/source data for Design and Contract/Purchase processes.

MIS Analyst – Arceli Life Science Pvt. Ltd. **Mumbai, India** **Jul 2025 – Jun 2026**

1. Build and maintain weekly and monthly sales MIS dashboards in **Power BI** and **Excel** to track SKU-level performance, regional sales trends, and order volumes across herbal extract and CO2 product lines.
2. Collaborate with stakeholders across sales teams to deliver KPI dashboards and performance reporting solutions. Analyze sales data to identify fast and slow-moving products.

Data Science Trainee – IT Professional Training **Edinburgh, UK** **Nov 2024 – Apr 2025**

1. Analyzed and transformed large student performance datasets using **Python (Pandas, Matplotlib, Seaborn)** and **MongoDB**, identifying trends, KPIs, and at-risk students.
2. Developed **Power BI** dashboards to monitor cohort performance, reducing reporting turnaround by **30%**.

Data Science Intern – Unified Mentor **Haryana, India (Remote)** **Jun 2024 – Jul 2024**

1. Analyzed HR data using **Python** and **SQL** to calculate attrition rates and identify key drivers of employee turnover.
2. Presented attrition insights through Power BI dashboards, enabling process automation and reducing manual reporting by **40%**.

Retail Team Member – Washington Vapes **Sunderland, UK** **Jan 2024 – Sep 2024**

1. Monitored sales patterns to identify fast-moving, slow-moving, and dead stock, reporting insights to management to support promotional pricing strategies.
2. Designed and implemented an **Excel**-based inventory dashboard to monitor stock movement, identify slow-moving and dead stock, and support replenishment decisions, contributing to improved inventory visibility and promotion to a full-time position.

PROJECT EXPERIENCE

Social Media Marketing Optimization:

1. Analyzed 2,300+ YouTube videos and channel-level records using **Python** and **Machine Learning Models** like **Decision Tree, Random Forest, Knn, and SVM** to identify engagement drivers influencing views, likes, and subscriber growth.
2. Delivered campaign analytic and **Power BI** dashboards translating engagement data into actionable recommendations, contributing to subscriber growth from 2K to 6K.

EDUCATION, SKILLS & CERTIFICATIONS
